

Jake McGraw is a man on the run from half the universe. After stumbling upon what seems to be the fabled roadmap to the stars, Jake must outrun the most detestable vermin and roadbugs in the galaxy and the only thing separating him from them is his tattered starrig. In the lawless region of space Jake must keep his rig running if he knows what's good for him. He has something that everyone wants and they will stop at nothing to get it. But how long can he keep going on the road where there is no relief for light years?
