

A dark entity lurks within a virtual environment, and hes trying to get out. A sorceress hell-bent on revenge inadvertently pits herself against him in her own quest for vengeance, and Morgan Asher finds himself caught in the middle of this epic struggle of bad versus evil in Prisoner of Time. The future has fallen asleep. A majority of people spend their lives in computer-generated simulations, their bodies frozen and their minds downloaded into massive computer systems owned and operated by wealthy corporations. Morgan Asher is trying hard to forget about the pain and loss he suffered in one such simulation, but fate brings him back to the sword and sorcery world of Fantasan in search of a friend he long believed to be dead. Little does he know that a trap awaits him, set by the mad sorceress, Josie Johansen, a woman who blames him for the death of their mutual friend. Morgan soon finds himself in over his head, lured into a trap that threatens to make him a prisoner of time itself, yet when Satan-incarnate makes his presence known it shall certainly make for some strange bedfellows.
